

About Us

M.T.C. specialise in providing architectural, town planning, urban design, building surveying, and project management services to all sectors of the community.

Through detailed and thorough design processes, we seek to enable all of our clients to realise the potential of developing buildings in an increasingly progressive environment

Our range of clients include the following sectors:

Residential
Health and Education
Retail and Leisure
Industrial and Commercial
Town Planning
Building Surveying
Urban Design
Expert Witness

M.T.C. has a working relationship with C.T. Design Environmental, a firm of environmental code assessors.

Currently in Wales, and soon in England, all new dwellings will require pre-application Code for Sustainable Homes assessments as part of any Planning Application
